

## ALCOHOL FREE SPARKLING

**Description of the product** In 2011 we launched our first alcohol free sparkling drink after two years of technical and market research and winemaking trials. In 2016 we have renewed not just the presentation but the taste of this product. We have done many tests and many tastings to find the perfect updated profile for an innovative product in a growing market.

**Analysis** Ehtanol: < 0.05% vol.

Total Acidity (expressed in Sulphuric): 3,30 g/l

Residual Sugar: 54 g/l

**Ingredients** De-alcoholised wine, rectified concentrated grape must, carbon dioxide, antioxidant: sulfur dioxide, preservatives: potassium sorbate and dimethyl dicarbonate, stabilizer: gum arabic, flavouring.

**Tasting note** The colour is pale bright yellow with persistent bubbles. On the nose there are refreshing tropical notes and elegant citrus hints. On the palate it is lively, fruity, and especially refreshing. It fills the mouth, and expresses the good quality of the base wine. The very well balanced acidity and the medium size bubbles produce a very pleasant mouth feel.

**Recommendations** Serve between 5 and 8°C. Store it in an upright position and constant temperature, away from light and vibration. It is ideal for appetizers.

**Best before** Consume preferably within 24 months after the date of production.
